

AI, ROBOTICS & NEW TECHNOLOGIES EDUCATIONAL PROGRAM IN CHINA

Zhejiang Tech Leadership Camp 2026

7 Days Tech + Culture + Global Experience

Location

Zhejiang, China

Duration

7 Days / 6 Nights

Age Group

13 – 23 Years

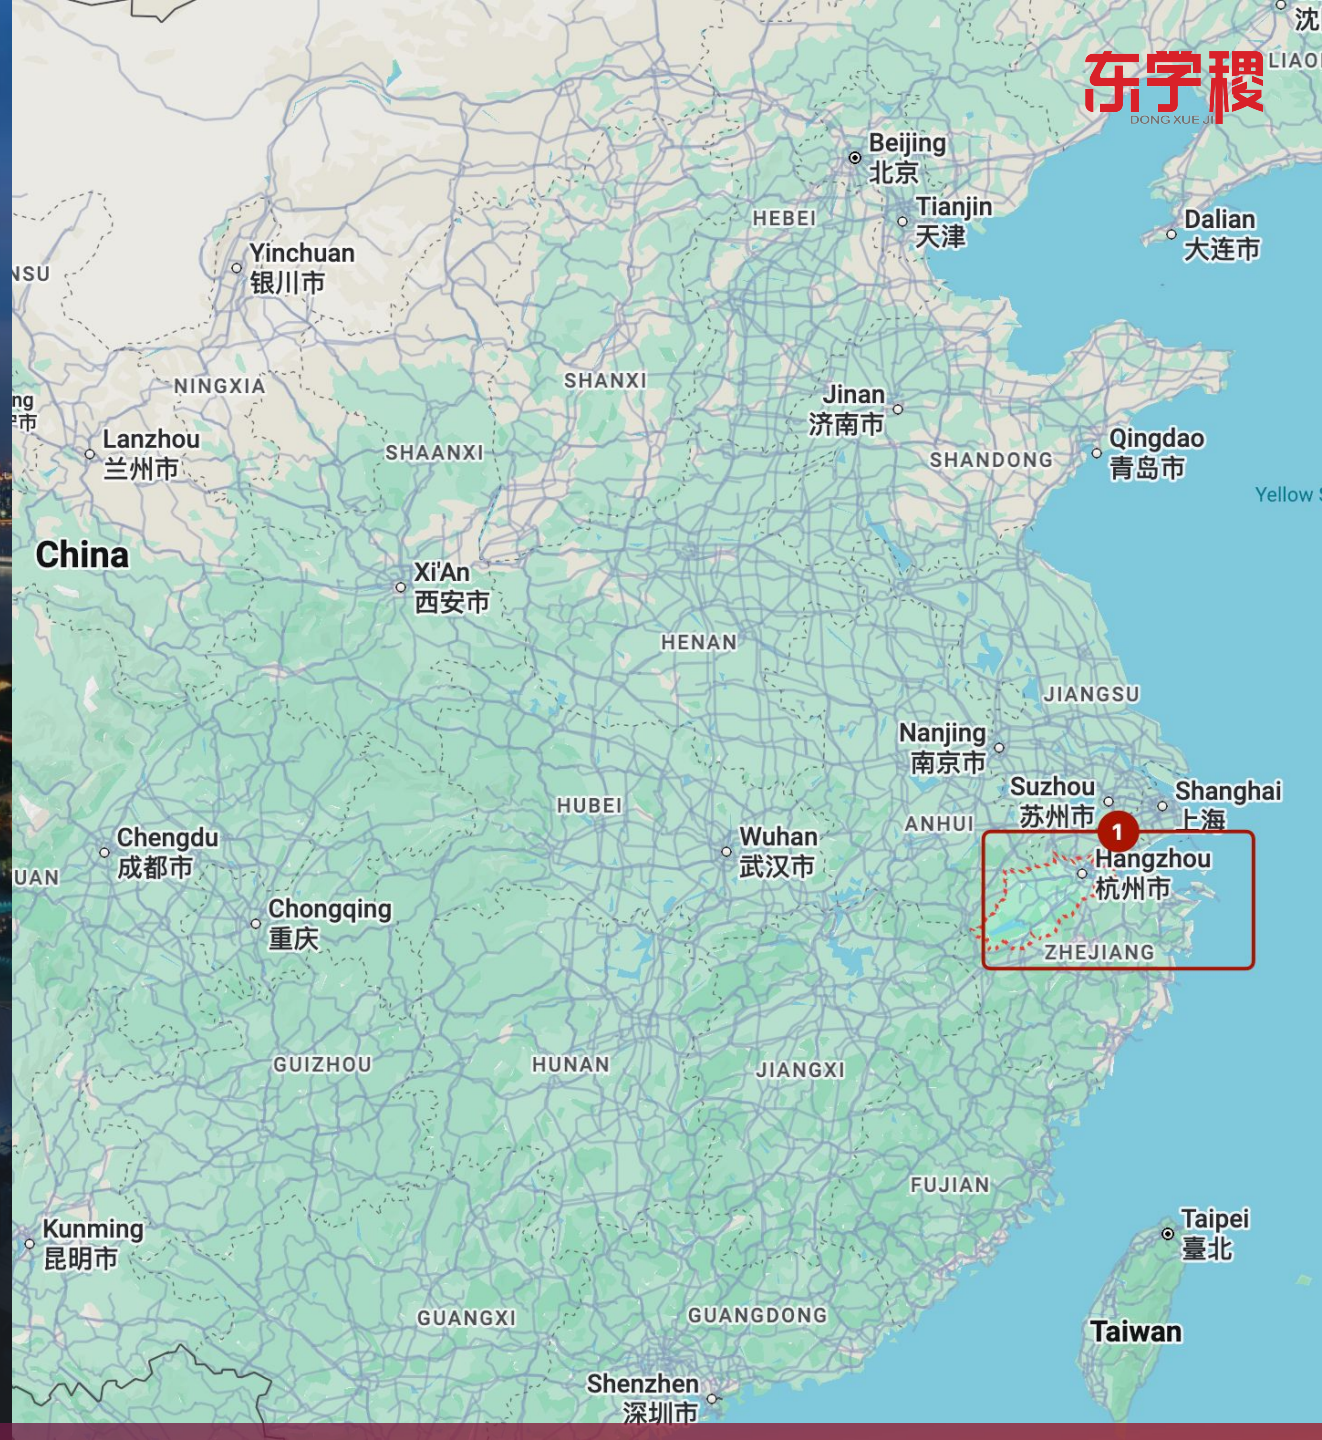

Language

English

Hangzhou

China's Tech Capital

- Leading digital economy hub
- Home of global tech ecosystem
- Innovation-driven city

Hangzhou – China's Tech Capital

 Zhejiang Province

Hangzhou combines innovation and culture — the perfect environment for students to learn and grow

Home of Alibaba & Top Tech Companies

The birthplace of Alibaba Group and headquarters for numerous global tech giants, offering unparalleled access to innovation ecosystems

China's Digital Economy Center

Leading China's digital transformation with cutting-edge e-commerce, fintech, and smart city initiatives that shape global trends

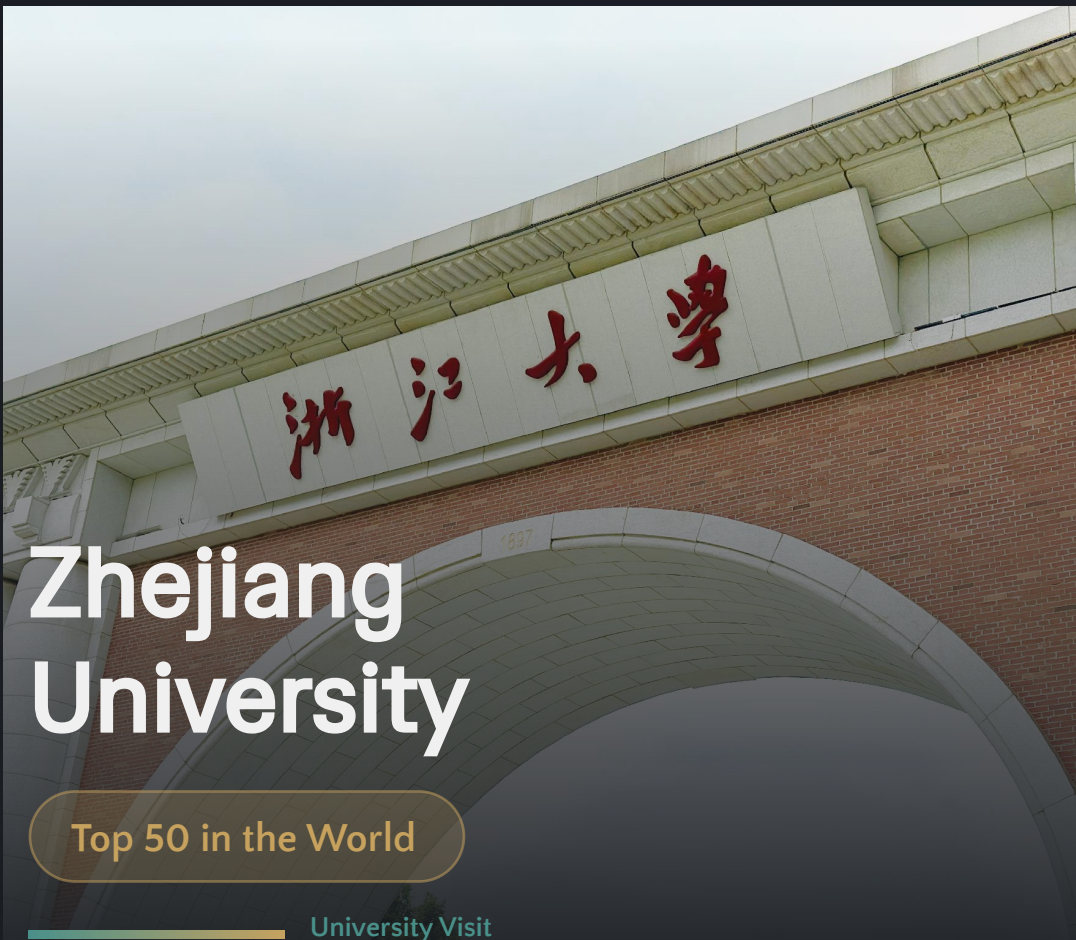

UNESCO Cultural Heritage City

Home to the legendary West Lake, a UNESCO World Heritage site, offering rich cultural experiences alongside modern innovation

Safe & International-Friendly

One of China's safest cities with excellent infrastructure, international communities, and welcoming environment for global visitors

"Students will experience real university environments and see what it takes to study at one of the world's premier institutions"

Member of China's C9 League

Part of China's most elite group of universities, equivalent to the Ivy League in the United States

Ranked Top 50 Globally

Consistently ranked among the world's best universities for academic excellence and research output

Known as "Cambridge of the East"

Renowned for its beautiful campus, academic rigor, and historic significance in Chinese education

Alumni Include Tech Industry Leaders

Graduates have founded and led major technology companies, driving innovation across the globe

Zhejiang University

Top 50

Globally

C9

League

Top

Academic Environment

One of the World's Largest Tech Companies

A global leader in e-commerce, cloud computing, and digital innovation, serving billions of customers worldwide

Learn Digital Economy & E-Commerce

Understand how Alibaba transformed global commerce and created new business models

Explore Innovation Culture

Experience firsthand the dynamic work environment that fosters creativity and entrepreneurial thinking

AI Learning Session Included

Participate in exclusive workshops on artificial intelligence applications and future technologies

See How Global Tech Companies Operate

Students will gain insider access to one of the world's most successful technology companies, learning about operations, innovation strategies, and corporate culture

Future of Smart Mobility

 Geely Group

Global Automotive Leader

One of China's largest and most innovative automobile manufacturers with global presence

Explore Smart Manufacturing

Witness cutting-edge automated production lines and Industry 4.0 technologies in action

Learn About Electric Vehicles

Discover the future of sustainable transportation and EV technology development

Understand Industry Innovation

See how traditional industries are being transformed through technology and innovation

Tech Experience

AI & Robotics Experience

**Shenhao
Technology**
Robotics Innovation Center

Experience hands-on exposure to cutting-edge robotics and AI applications that are shaping the future of industry

Visit Shenhao Technology

Tour a leading robotics company and see advanced automation systems and intelligent machines in operation

AI + Big Data Applications

Learn how artificial intelligence and big data analytics are integrated into modern industrial processes

Smart Industry Solutions

Discover how smart technologies are revolutionizing manufacturing, logistics, and operations

Hands-On Exposure

Interact with robots, control systems, and AI platforms through guided demonstrations and activities

AI & Robotics

- Artificial Intelligence
- Robotics
- Big Data

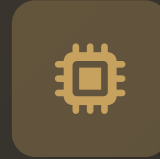

Explore the Digital Future

 Wuzhen Internet Museum

Wuzhen Internet Technology Museum

Visit one of the world's premier museums dedicated to internet history and digital technology, located in the historic water town of Wuzhen

AI, Cloud Computing, Big Data

Explore exhibits showcasing the latest developments in artificial intelligence, cloud infrastructure, and data analytics technologies

Interactive Learning Experiences

Engage with hands-on exhibits, simulations, and demonstrations that make complex technologies accessible and exciting

Understand Digital Civilization

Gain insights into how digital technology has transformed human society, economy, and culture throughout history and into the future

Explore Digital Civilization

Wuzhen World Internet Museum

Experience Real Chinese Culture

West Lake

UNESCO World Heritage site renowned for its scenic beauty and cultural significance

UNESCO Site

Grand Canal

Night cruise along the historic Grand Canal, experiencing ancient waterway culture

Night Cruise

Wuzhen Qinghefang

Ancient street exploration with traditional architecture, shops, and cultural heritage

Ancient Street

Traditional Crafts

Experience traditional Chinese crafts and authentic local cuisine

Crafts & Food

Program Highlights

 7 Days / 6 Nights

01

Day 1

Arrival & Orientation

Airport pickup,
campus
check-in,
welcome dinner,
program briefing

02

Day 2

Top University & Tech Immersion

Zhejiang University, AI
course, robotics
training, Alibaba visit,
live show

03

Day 3

Future Tech & Cultural Exploration

Wuzhen tech
museum, digital
exploration,
water town,
cultural heritage

04

Day 4

AI & Robotics

Shenhao visit,
robotics industry,
robot demo, AI
programming

05

Day 5

Smart Industry & Culture

Geely factory,
smart
manufacturing,
autonomous
driving, museum
& craft

06

Day 6

Culture & City

West Lake,
Qinghefang
street, TCM
experience, live
show

07

Day 7

Departure

Closing
ceremony,
certificate
presentation,
airport transfer

A Day in the Life

Experience the Transformation Firsthand

Morning

8:00 AM — 12:00 PM

Walk into Zhejiang University

Enter world-class facilities

Landmark Photo Check-in

Explore iconic spots

Robot Training Base Tour

Experience robotics labs

AI Course

Hands-on AI learning

This is not just a camp. It's a transformation.

A Day in the Life

Experience the Transformation Firsthand

Afternoon

1:00 PM — 5:00 PM

-  Visit Alibaba
Step inside tech headquarters
-  Learn AIGC Tools
Create with AI technology
-  Alibaba Culture Experience
Discover company culture

★ This is not just a camp. It's a transformation. ★

A Day in the Life

Experience the Transformation Firsthand

Evening

6:00 PM — 9:00 PM

Immersive Live Performance

A fusion of history and art

Cultural Storytelling

Discover Jiangnan heritage

Night Scenic Experience

Enjoy the beauty of ancient waterways

This is not just a camp. It's a transformation. ★

Accommodation

Modern, comfortable facilities

Meals

Nutritious, diverse cuisine

Transport

Reliable, safe transfers

Safety & Student Care System

Safety is Our Top Priority

We provide full supervision and a structured support system to ensure every student is safe, supported, and well cared for throughout the program

24/7 Supervision by Trained Staff

Professional staff members are present around the clock, ensuring students are never without support

Dedicated Mentors Supporting Students Daily

Each student group has assigned mentors who provide guidance, answer questions, and offer emotional support

Full Insurance Coverage During Program

Comprehensive travel and medical insurance covers all participants throughout their stay in China

Emergency Response System in Place

Rapid response protocols and 24/7 emergency hotlines ensure immediate assistance when needed

Secure University Campus Environment

All activities and accommodations take place within safe, monitored university facilities

Why Choose This Program

Differentiators

★ Not Just a Tour

Students don't just visit — they actively participate, collaborate, and create real projects with international peers

Multinational Teamwork

Work alongside students from different countries, building cross-cultural understanding and global friendships

01

Mission-Based Learning

Engage in challenge-driven projects that require creative problem-solving and practical application of skills

02

Real Industry Immersion

Go behind the scenes at world-leading tech companies and universities to see innovation in action

03

Hands-On Project Experience

Create tangible outcomes, from tech prototypes to cultural presentations, building a portfolio of real achievements

04

What Will Students Achieve?

This program directly improves students' future competitiveness

Critical Thinking & Teamwork

Develop analytical skills and learn to collaborate effectively in diverse teams

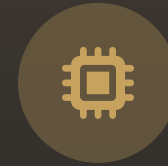

Global Perspective

Gain international exposure and cross-cultural understanding that broadens worldview

Career Inspiration

Discover potential career paths in technology and innovation through real-world exposure

Tech Knowledge

Learn about AI, digital economy, robotics, and emerging technologies from industry leaders

Official Certificate

Receive a recognized certificate of completion to enhance academic and professional profiles

A Transformative Experience That Shapes Futures

Students return home with enhanced skills, broader perspectives, and the confidence to pursue their dreams in an increasingly connected and technological world
